Set Your Eyes On Things Above

Here are some tips on the subject of aviation:

- * Takeoffs are optional. Landings are mandatory.
- * If you push the stick forward, the houses get bigger. If you pull the stick back, they get smaller.
- * Flying is not dangerous; crashing is dangerous.
- * The propeller is just a big fan in the front of the plane to keep the pilot cool. Want proof? Make it stop; then watch the pilot break out into a sweat.
- * It's best to keep the pointed end going forward as much as possible.
- * Try to keep the number of your landings equal to the number of your takeoffs.
- * Gravity never loses!
- * It's better to be down here wishing you were up there, than up there wishing you were down here.

Several of these tips lend themselves to spiritual application, but the one that jumped out at me was that last one. How much better it is to be on this earth with a mind set on "things above", than to be anywhere with a mind set on "things below"!

If then you were raised with Christ, seek those things which are above, where Christ is, sitting at the right hand of God. Set your mind on things above, not on things on the earth. For you died, and your life is hidden with Christ in God. When Christ who is our life appears, then you also will appear with Him in glory. (Colossians 3:1-4)

Because we are surrounded by a world which we can see, it is easy to keep our eyes focused solely on that world. We will never grow as Christians, though, until we set our sights higher. Reminder to set your eyes on "things above".
