Encouragement and Counseling Ministry

“Just how does it work” an individual questioned. “As Christians, we are in the world, but not of the world?” “We eat, sleep, work and interact with those in the community around us and we are to maintain a spiritual focus?” “We came from biological families, but are to think with the mind of Christ and allow the Holy Spirit/Holy Scriptures to work in our lives producing fruits of the Spirit”.

We did not choose our genetics/DNA or our biological families. Most of us did not express our wishes regarding an elementary school we would attend nor did we develop abstract and conceptual thinking processes necessary to solve complex problems until approximately 11, 12 or 13 years of age. So, when we begin our spiritual walk, having participated in redemption through Him, then what about continued regrets and desires toward our “biological nature”.

For over 6,000 years of recorded human history, God has consistently given us the ability to make our own decisions. He has not removed all things and people from our path that would harm us. It appears evident that our “free will choices” are necessary ingredients that facilitate our process of becoming spiritual sons and daughters to God. As long as we are biological, we will struggle and “a measure of regret regarding mistakes, betrayal and sins” sufficient toward producing spiritual growth in us is healthy. “Falling on our face and crying out” to God is met with Him sharing a “store house of treasures and gifts”, including ample amounts mercy and grace. At this very moment, He has blessed us with an outstanding spiritual family desirous to share our joys, struggles and sorrows.
